Tomorrow is just planning, but one question is if we've covered all the sections where modeling/ADME comes into play, hence we need to review. Eva is preparing a list of what sections (and who) we are currently planning on, so we can copy you on those and you can just let us know by email if you think there are others we've missed.

Eva: see note re. endogenous HCHO below.

We can keep you posted on when we do have results to discuss.

Hi Paul,  
Thanks for letting us know your schedule. I think Andrew and I are interested in attending any meeting where reviewers will be discussing their comments/views on document rather than attending all the meetings. Will you be sending out agendas in advance generally? That way we could determine if we should attend.

Also, I wanted to make sure that your group also is reviewing the part in the toxicokinetics section that discusses endogenous formaldehyde? John Whalan suggested that Eva would be appropriate for this.

Regards, Barbara

colleagues,

I'm about to send you invitations for tomorrow's PKWG meeting (11 am-noon), at which we will discuss our plans for reviewing the draft formaldehyde assessment, as well as other business. You'll see from the agenda that this is the 3rd item on the agenda, so it will probably be around 11:20 when we actually get on to it.

At this point it's just discussing how we will tackle the review: who will do what and how we will coordinate the reviews. We are tentatively planning on 10-11 am on Thursdays as our regular meeting time, with the next two (7/18 and 7/25) focused on formaldehyde. If you want to be invited for those, let me know.

-Paul
